

Samaritan Ministries

a Biblical, non-insurance approach to health care needs

Informational Seminar

Would you like to have the assurance that your health care dollars will never pay for things that violate your Biblical faith?

Would you like to have the freedom to choose which doctor you use, rather than leaving that up to a health insurance company?

Would you like to have the choice of a more affordable option for health care?

Would you like to provide your entire family with health care coverage even though your employer doesn't?

Would you like to know that your health care dollars are helping other Christians families directly in the midst of their medical need?

Have you ever thought--"There must be a better way?"

If you answered YES to any of these questions we would like to invite you to join us for this free seminar where you can learn all about an exciting Christian alternative to health insurance; one that allows you to live out your Christian faith, provide for your family's health care need, and avoid the penalty associated with the Affordable Care Act.

Samaritan Ministries is a not-for-profit Christian ministry that has been around for twenty-two years.

Come learn how over sixty-eight thousand households are sharing more than twenty-five million dollars in medical needs each month.

Basic Financial Information:

Members of the basic ministry agree to share expenses incurred for medical treatments specified in the Membership Guidelines. The amount of the monthly share is based on household size, regardless of your medical history, age, or other factor.

Membership Type	Monthly Share
One person	\$220
Two person family	\$440
Three or more person family	\$495
Widowed or divorced with children	\$305

"CMI very rarely promotes other organizations due to our strong stance on serving the church across denominational lines, but we believe firmly in what Samaritan Ministries is doing for Christians. They helped us and I believe they can help you too." Gary Bates, CEO – Creation Ministries International
